Assisted and PCI compliant

CARD PAYMENTS
over the phone

TO TAKE A CARD PAYMENT LEGALLY

You need to be PCI compliant, which is:
- expensive
- time and resource intensive
- nearly impossible with remote workforce

RISKS

If your business is not PCI compliant you risk:
- fines, often hidden in monthly fees
- fraud, with damage to your brand
- loss of payment facility
- unsecure data
- a personal sanction by the ICO of up to £0.5M for UK directors

THE SOLUTION

Your customer enters the card details securely via their telephone's keypad and they are sent directly to your bank
- more cost-effective
- PCI compliant with remote staff too
- assisted throughout by your agents
- gain revenues from missed online sales
